

Advanced Topics in Medical Defense Against Biological & Chemical Agents

**6. Chemical Threat Agents: What History Has Taught Us, Course No. 03.USAMRICO.A
TECHNICAL FACT SHEET**

DATE: August 27, 2003

TEST TIME: 12:30 p.m. - 1:00 p.m. EDT
 11:30 a.m. - 12:00 p.m. CDT
 10:30 a.m. - 11:00 a.m. MDT
 9:30 a.m. - 10:00 a.m. PDT

PROGRAM TIME: 1:00 p.m. - 3:00 p.m. EDT
 12:00 p.m. - 2:00 p.m. CDT
 11:00 a.m. - 1:00 p.m. MDT
 10:00 a.m. - 12:00 p.m. PDT

SATELLITE TROUBLE NUMBER: 1-888-626-8730

Q&A NUMBER: 1-800-527-1401

FAX Q & A NUMBER: 1-888-361-4011

C-Band: Galaxy 11 (G7 or GB) 91 degrees West				
<u>Transponder</u> 20	<u>Polarization</u> Vertical	<u>Channel</u> 20	<u>Downlink Freq.</u> 4100 MHz	<u>Audio</u> 6.2/6.8 MHz
Ku-Band: SBS 6 (06 or B6) 74 degrees West				
<u>Transponder</u> 16	<u>Polarization</u> Vertical	<u>Channel</u> 16	<u>Downlink Freq.</u> 12092.5 MHz	<u>Audio</u> 6.2/6.8 MHz

IMPORTANT SATELLITE INFORMATION TO HELP YOU TUNE IN

- Galaxy 11** is located at 91 degrees West, where Galaxy 7 used to be, some time ago. You can possibly find it by choosing **G7 (or Galaxy 7)** if you have older programming, or **GB** if you have a 4DTV system. If you would like to set up and/or test your receiver early, the following programming exists on Galaxy 11 (as of this writing): Channel 10 – Shop at Home (home shopping)
- If you see this programming, it is highly likely you will be able to receive our programming, however, if after several tries you don't see this programming, you may need to have your equipment checked out before our program. After successfully finding programming on these channels, don't forget to change to Channel 20 for our program.
- SBS 6** is located on the far Eastern side of the arc at 74 degrees West. Some receivers identify it as 06

(zero six); some call it “B6.” To get the best reception, you may need to fine tune it. Unfortunately there aren’t any 24-hour channels on that satellite to help you set up early. Just be sure to be ready when our test begins.

4. It is very important for you to test your equipment as soon as possible to ensure that it is functioning properly and to see if you can get programming from the satellite we’ll be on. Storms can cause damage and/or move your antenna out of alignment or you may not have your satellite of choice programmed in. Do not wait until test time to discover problems. If you think your dish and/or receiver are malfunctioning or not programmed correctly, have them checked out by a professional well before the program.
5. The first 5 – 15 minutes of the program test will show “**FDA Tech Center**” over color bars, with a tone sound. After that, there will be a program slate and music. You should both see and hear this information properly in order to be ready for the program.
6. Although a Troubleshooter will be provided, we cannot guarantee the performance of your equipment.
